

Capabilities Brief

Driving Success through Innovative Solutions and Strategic Partnerships

Who We Are

With over two decades of experience, Strategic Systems & Technology addresses today's complex data collection challenges. We provide industry-focused solutions to help achieve specified outcomes and goals. Specializing in large-scale deployments of enterprise mobility technology and RFID hardware, we are a Zebra Premier Solution Partner, ISV Partner, and Advanced RFID Specialist, making us your comprehensive solutions provider.

What We Offer

In addition to standalone technology, Strategic Systems provides complete end-to-end solutions by utilizing products from Zebra Technologies in combination with in-house professional services. Regardless of your industry or business need, our value-added integration services can deliver significant enhancements to your business performance.

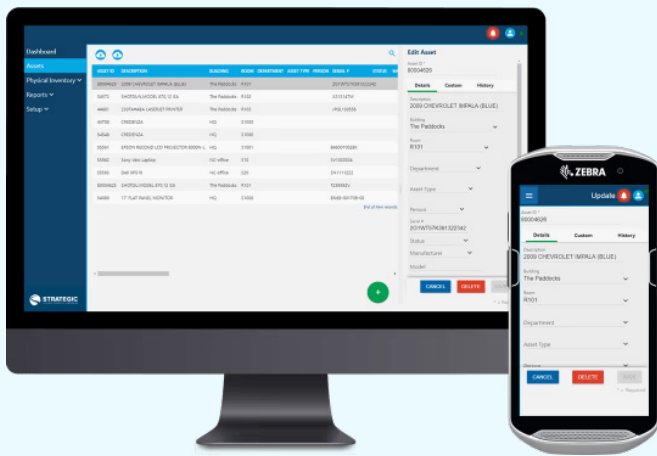

Hardware

Strategic Systems takes great pride in our cutting-edge solutions and our ability to support customers before, during, and after every sale. With access to the largest portfolio of industry-leading solutions, services, and products, we have deployed and integrated over 500,000 devices since 1999. Strategic Systems' partnerships, like with Zebra Technologies, enable us to deliver innovative solutions that provide a competitive edge. These collaborations ensure unparalleled connectivity, productivity, and efficiency for our clients.

Our core hardware portfolio includes:

- Mobile Computers
- Tablets
- RFID
- Scanners
- Readers
- Autonomous Mobile Robots
- Powered Workstation Carts
- Interactive Kiosks
- Wireless Printers
- Printing Supplies

Software & Services

With our expansive list of hardware and technological offerings, Strategic Systems provides unmatched, innovative solutions and services, too—including **Spare Pool Management (REX)**, **RMA Management (REX)**, **Device Staging and Kitting**, **Golden Image Creation**, **Mobile Device Management**, **RFID Services**, **Business Analysis and Consultation**, **Project Management**, **Label and Tag Printing/Encoding**, **Custom Label Design**, **Onsite Survey/Deployment/Training Services**, and **Software Integration** (Ivanti, BarTender, Zebra, etc.)
