MOBILITY DNA
INTEGRATE · SECURE · DEPLOY · MANAGE · OPTIMIZE
DATA CAPTURE DNA · PRINT DNA

ZEBRA DNA. Zebra DNA is the industry's broadest suite of enterprise software that delivers an ideal experience for all during the entire lifetime of every Zebra device.

MOBILITY DNA. Zebra Mobility DNA is a suite of enterprise solutions designed to help maximize mobile user productivity and minimize IT complexities over the lifespan of a Zebra computer, tablet or wearable device. Its secure solutions help you deploy, manage and support every stage of your devices' lifecycles.

PRINT DNA. Durable printers are essential, but it's the software inside that will keep them in action. That's why we built Zebra Print DNA into our printers, ensuring complete integration and interoperability—now and into the future. It's a suite of software capabilities that leverages everything we've learned from thousands of use cases to make sure your printers work at their highest potential.

DATACAPTURE DNA. Scan with abilities developed and continuously refined by a partner with more than 50 years of field-proven innovation. DataCapture DNA—a suite of software capabilities to help your team adapt to future needs and achieve greater business outcomes.
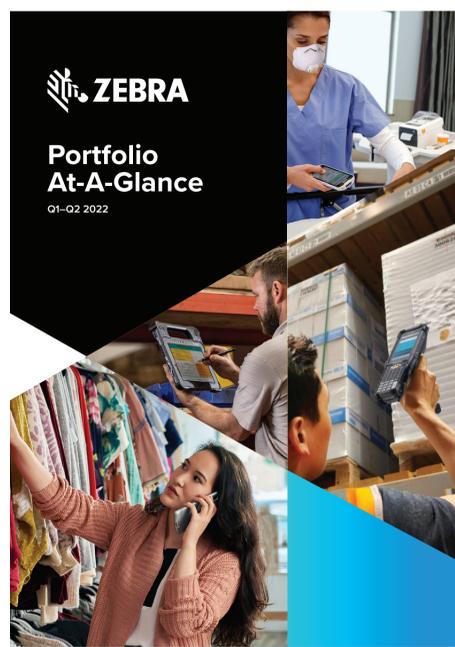

Global Services[1]

Zebra Signature Services

Emerging technologies and rising customer expectations mean investing in edge-data solutions. To help you integrate Intelligent Edge Solutions like SmartLens and Workforce Connect into existing IT environments and workflows, Zebra offers a range of Signature Services. These services accelerate the speed with which businesses can introduce solutions to operate more productively with minimal investment, driving new revenue growth.

Accelerate the adoption of intelligent edge solutions to maximize your competitive advantage and see these benefits:

| New sources of business transformation | Rapid ROI through project success and user adoption | Accelerated business outcomes |

Explore intelligent edge solutions with Zebra Signature Services.

Zebra OneCare™ Maintenance Plans[1]

Constant peak performance and device uptime—that's the upside of protecting your investment with Zebra OneCare services. Reduce device vulnerabilities, eliminate unexpected disruptions and unbudgeted repair expenses while enabling predictable performance, critical operations and improved business outcomes.

Pick the maintenance and support plan that's right for you, right for your device, right for your budget and right for your business. We understand one size doesn't always fit all. The choice of plans and flexible enhancements makes it pain-free to engage with Zebra experts for your ongoing support needs. All OneCare plans for mobile computers and scanners include access to VisibilityIQ OneCare[2], a cloud-based tool providing detailed insight into repair and support information, contracts, case lifecycle reports, LifeGuard Analytics, repair on-time delivery, repair rates and top repair metrics reports.

Technical and Software Support (TSS)
Available if a repair support plan is not purchased, you can still make sure your data is protected and you have support when needed. Access expert technical support and Zebra-exclusive security patches and software updates, including LifeGuard. This plan also provides support for software applications, both OEM and third-party.

Zebra OneCare Special Value (SV)
Right-priced protection for your value tier mobile devices and eligible printers. Coverage for normal wear and tear and device failures, 8x5 local time live-agent technical support, five-day repair turn-around time plus optional accidental damage repair coverage for value tier mobile devices.

Zebra OneCare Essential
Core service assurance. Comprehensive repair services cover accidental damage plus normal wear and tear, access to restricted software including LifeGuard security updates, 8x5 technical support, 24x7 online access to additional support materials and tools, three-day repair turn-around time and access to the Device Diagnostic Tool.

Zebra OneCare Select
Maximum device protection. Includes all features of Zebra OneCare Essential, plus next business day advanced device replacement, Standard Commissioning so devices are reloaded with settings, customer apps and software, required OS and LifeGuard versions, plus 24x7 live-agent technical support.

Zebra OneCare On-Site Support
If your devices are too vital to your business to send out for repair, or if your devices are too large or cumbersome to send in, one call can bring a Zebra-trained and certified technician to your door for one-on-one, personalized attention.[1]

Zebra VisibilityIQ™ Services

Zebra's VisibilityIQ services provide deep, cloud-based insight into your devices to tell you how your devices are performing, so you can decide what next steps you can take to improve your operations and maximize productivity. Without clear, comprehensive data from the mobile devices that run your business, you're in the dark trying to compensate with manual tracking, excessive inventory and repair.

VisibilityIQ gives you the data-driven, actionable insight when and how you need it. Get a clear view into how your devices are performing and know what next steps can push up productivity and drive down costs.

VisibilityIQ Foresight[3]
Zebra VisibilityIQ Foresight is focused on providing device health and utilization insights. The operational insights provide historical data trending, current state health and actionable predictive intelligence on what will occur if no action is taken. Its multi-source data aggregation and machine learning algorithms deliver a consolidated solution that provides color-coded insights with threshold alerts about your device inventory.

VisibilityIQ OneCare[2]
Included in all Zebra OneCare support contracts for Zebra mobile computers and scanners, the cloud-based tool provides status of device repairs, technical issues, contracts, case reports and software, LifeGuard™ Analytics, and more.

ZEBRA
Certified Supplies

Print Confident. Print Quality. Print Zebra.
Printing supplies can impact everything from printhead lifespan to operational efficiency. That's why we produce our own line of thermal printing supplies to ensure consistent, optimized performance in your Zebra printer—and peace of mind for you.

With Zebra Certified Supplies, you get:

Unmatched thermal printing expertise
More than 30 years of experience in producing products of exceptional quality.

Exceptional service
Zebra has the scale and infrastructure to meet your printing supply needs quickly and effectively.

Consistently outstanding quality
We subject every item to rigorous testing, ensuring premium craftsmanship and durability.

Increased efficiency and productivity
Because our printing supplies are so consistent, workers experience fewer hassles and require less IT assistance, reducing downtime.

Lower total cost of ownership
Wear and tear is reduced, and the need to reprint and replace labels due to poor quality is virtually eliminated.

Flexibility and convenience
Customize products to meet your unique needs, or get hundreds of in-stock products quickly with our ZipShip™ service.

Please contact us for more information on Zebra products and services.

Software and Solutions

The Zebra Savanna™ platform aggregates and analyzes data from Zebra edge devices to reveal actionable workflow insights, powers next-gen applications and solutions that deliver best-action guidance, and integrates with existing hardware, software and data ecosystems to give you a more complete picture of your business.

Additionally, Zebra Data Services offers cloud-based, unified APIs and developer tools enabling partners and developers to leverage edge data to build secure, scalable digital services with ease and speed.

ZEBRA WORKSTATION CONNECT
Transform Zebra mobile computers and tablets into mobile-driven workstations, on demand. This powerful software solution doubles the functionality of your Zebra mobile device—increasing workforce efficiency and your return on investment.

ZEBRA SMARTLENS™
Turn your entire store into a smart store that automatically senses and records the location and movement of virtually everything in your retail space—merchandise and assets—and turns that data into easy-to-read actionable intelligence that helps prevent shrink and theft.

ZEBRA MOTIONWORKS™
From automatically sensing the location of assets and inventory, to improving the safety of people and streamlining production lines, Zebra MotionWorks delivers proven location solutions to turn location intelligence into business value.

ZEBRA REFLEXIS™
Zebra Reflexis is the industry-leading cloud-based workforce management and task management solution platform for multi-site organizations. It helps simplify frontline operations and optimize labor decisions with the power of AI.

ZEBRA SMARTCOUNT™
Zebra SmartCount is the most innovative and comprehensive self-scan, physical inventory management solution available to the retail industry worldwide. With simple out-of-the-box deployment, Zebra SmartCount delivers real-time inventory visibility with significant savings to better manage shrink, increase sales and ensure store inventories are as accurate as possible.

ZEBRA WORKFORCE CONNECT
Consolidate critical workflows into one fully connected platform with Zebra Workforce Connect—the most complete solution for your frontline workforce. Unlock communication capabilities with powerful voice and messaging features to Zebra mobile devices, or third-party devices, to connect and empower frontline workers.

ZEBRA PRESCRIPTIVE ANALYTICS
Drive retail profit through course-corrective actions with Zebra Prescriptive Analytics. It automatically translates your data into prioritized actions, automatically verifying execution for you. Now, you can combat total retail loss and gain complete control of your inventory from vendor to shelf to omni-channel customers, across your stores.

ZEBRA AURORA™
Get the power of one unified platform to control your enterprise-wide manufacturing and logistics automation solutions. With Zebra Aurora's intuitive modern interface, experienced and first-time users alike can easily set up, deploy and run Zebra Fixed Industrial Scanners and Machine Vision Smart Cameras.

ZEBRA INTELLIGENT CABINETS
Keep your assets and workflows functioning together with optimal security. Zebra Intelligent Cabinets offer end-to-end storage solutions, software automation, security applications and ongoing support to maximize the use and productivity of your enterprise mobile computers, mobile printers and tablets.
